Ice! Ice! Ice!!!

People wanting ice will leave their orders at Dec. Benton's Livery Stable Ice delivered to any part of the city. may121f

FOUND.—A Masonic sleeve button. The owner can have it by proving property and paying for this advertisement.

ALL SORTS.

—Congress adjourned yesterday.
—WANTED—A girl to do general housework. Apply at this office.
—John Pervis and his donkey will make a horse laugh. Be sure and see them.

—Hereafter the Lyon County Times will be issued as a semi-weekly newspaper.

—The clown elephant "Sid" has no equal as a performer. He is with Sells' Circus.

—Mrs. T. R. Hofer and children and Mrs. Chas. Hofer, returned yesterday morning from Auburn, Calif.

—Mr. J. R. Judge is spoken of as a probable candidate for District Judge on the Democratic ticket.

—The new Republican paper to be started in Winnemucca on the 16th inst. will be called the Humboldt Mail.

—The Opera House floor is being made more comfortable for the dancing public by the placing of springs under the foundation piers.

—The County Court of Salt Lake last week granted a divorce to Mary Eleonor Molinelli against Lambert Molinelli, formerly of Virginia City.

—The members of the Gladstone Ministry surrendered their seats to the new Ministers. The members of both Ministries afterward lunched with the Queen.

—R. Sadler of Kureka comes out squarely and announces himself a candidate for Governor on the Democratic ticket, and further says he intends to get away with it.

—The heated term continues. Caranites look longingly to the Western hills beyond whose summits they know the cool breezes blow across Tahoe's blue waters.

—Lost.—Between the Arlington Hotel and the Opera House, a ladies' gold pin, sapphire stone, blue setting. The finder will be rewarded by leaving it at this office.

—Several families will start on camping trips as soon as the circus is over. Of course the children can't be deprived of so excellent an opportunity to improve their knowledge of natural history. Seeing is believing with both old and young.

—For its soothing and grateful influence on the scalp, and for the removal and prevention of dandruff Ayer's Hair Vigor has no equal. It restores faded or gray hair to its original dark color, stimulates the growth of the hair, and gives it a beautiful, soft, glossy and silken appearance.

—The Caledonians will be here in full force tomorrow. Their picnics are always of a high order in every sense. All the ancient Scotch games of contest will be played with the vim and sturdiness of their National character. There is room for all of Carson to join in the hilarity.

—Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite and rejuvenate their whole system. No other preparation so well meets this want. It touches the exact spot. Its record of forty years is one of constant triumph over disease.

—There is an important item for this State in the Civil Sundry Bill. It provides for the appropriation of \$30,000 for the survey of public lands in Nevada. There is a large portion of our public lands unsurveyed and this appropriation which Jones and Woodburn secured, provides that a survey of these lands shall be made at once.

Medical Testimony.

100 WEST 49TH STREET.
NEW YORK, JUNE 6, 1883.

Having in the course of a large practice extensively used Alcock's Porous Plasters in the various diseases and conditions of the lungs and pleura, and always with success, I recommend their use in that most aggravating disease, Summer Catarrh, or Hay Fever; strips of Plaster applied over the throat and chest will afford great relief from the choking tickling in the throat, wheezing, shortness of breath, and pains in the chest.

R. McCORMICK, M. D.

WANTED—Active Agents to sell mining specialties big money in commission or salary and expenses to responsible men. Address, H. P. S. P. & M. Co. Box 115, Newport, Ky. j1721m

—For the best horse liniment now in the market go to Dec. Benton. It is his own make, and warranted to beat all the fancy brands. j1721f

CUSTER AHEAD.

THE MOST COMFORTABLE
QUARTERS IN SAN
FRANCISCO.

Exquisite Decorations—Cordial
Receptions to Everybody.

From our Special Correspondent.

Custer Post No. 5, has taken the cover off the copper kettle, and has opened the most elegant little quarters in the city. Others may be larger and more intense, but for a cosy quarter it is immense.

The lines are formed at the corner of Fifth and Market at the Windsor, and are visited by comrades and ladies from every State in the Union. The decorations are neat and well arranged, and put in place by the ladies of the Relief Corps No. 15. The front room, which is a bower of fruit and flowers, is under their supervision, and more than attractive. A star in blue and gold holds the picture of Custer's victory, and a floral design takes in the well known face of General Logan. Smoking and card rooms are in the rear, and beneath the folds of the National colors the comrades are comfortable.

Custer is the only Nevada Post which has headquarters distinctly its own, and everybody from the sagebrush drifts hitherward.

There are various devices and designs and variations in silk and satin in the colors shown by the several departments, but the Nevada boys all wear a bunch of sagebrush, and it is known throughout the city as the Nevada badge, distinctive in odor and freshness, which fades not in its peculiarity. It has been discovered by Charley Boskowitz, who has been active in arrangements and decorations, that "Welcome Comrades" means to come in and pay. But at the Nevada headquarters the welcome is true and cordial, and there is no bell punch or register. In a word Custer Post is doing the perfectly correct thing, entertaining elegantly, and in the language of a late lamented veteran, takes the cake, the bakery and the yeast powder factory. J. J. C.

Fun in San Francisco.

From private letters it would seem that the half has not been told of the discomforts experienced by visitors in San Francisco during the past week. A chance to sleep on a hotel floor is a rare luxury. To eat at a restaurant one must wait his turn in the line. To ride upon the horse cars, a walk to the end of the line is necessary and wait your turn there. Small wins down along the line of the procession rented for \$25 and hard to find at that. Baggage cars side tracked and people wild for their trunks are minor troubles. Awfully sour grapes grow in San Francisco any how.

A Very Long Swim.

Miss Alice Boston, accompanied by Al. Hall, swam out to the revenue cutter, Richard Rush, which came into harbor at Santa Cruz. The vessel was a mile off shore, but the swim was easily accomplished by the pair. Mr. Hall boarded the Rush and made several high dives from various parts of the vessel. Miss Boston continued swimming while Mr. Hall was diving, and both returned to shore together, Miss Boston without resting, thereby making the longest swim of this season and earning the name of the "Water Queen of the Bay."

Will be Here Today.

It is hardly necessary to state that the grandest circus of all, and the greatest combination of all will arrive here this morning and give two performances and a grand street parade. It comes in full force and will be given with full effect everything being exhibited as promised. The circus portion includes the principal star performers of the country, and the menagerie contains finer, stranger and more interesting specimens of the animal creation than ever exhibited here before.

—The London Police have, it is stated, been informed of the existence of extensive intrigues by Irish and Russian dynamiters against the English Government. Detectives will be stationed at the different Russian ports, and all arrivals from Russia to Great Britain will be closely watched and the vessels searched.

Stock Raising.

The average importation of horses from Canada into the United States for some years past has been about 22,000 head. A few years ago the average value per head of horses so imported was \$95, whereas last year it was \$140.

If American ranchers would be a little wiser and improve their stock the United States would have no need to import any stock from over the line. There are millions of acres of unoccupied lands to be had almost for the asking. There are also thousands of young men in every State in the Union who don't know what to do with themselves. If it were possible to show these young men the profits to health and purse to be gained in stock raising the entire country would be benefited. Twenty years ago the idea of Nevada being an agricultural State was regarded as preposterous; today only the unthinking smile at the proposition. Every year develops unexpected resources for the rancher. Stock raising is admitted to be more successful and profitable than in almost any other part of the country. The young man who starts a stock ranch even upon a small scale, is sure to be a rich man in his old age. The United States ought to be exporting rather than importing, and the rising generation can bring about that condition if its energies are rightly directed.

Attempted Assassination.

LONDON, Aug. 5.—Advices from Constantinople report an attempt to assassinate the Grand Vizier. That official was out driving Sunday afternoon in a balitza, and two shots were fired at him by a Tartar. Neither of the shots struck its mark. The assassin then pursued the carriage with a drawn sword, with which he endeavored to strike the Grand Vizier. He was arrested and taken before the Sultan at Yildiz Kiosk. To his Majesty, the Tartar declared that the Grand Vizier had prevented him from securing justice, and implored him to hang the Vizier.

Suicides.

Suicide seems to be in form in Virginia City. August G. Koch who shot himself through the heart on Wednesday, leaves a wife and three children to make the struggle for bread which his courage failed him to continue. It is strange that a man can be so ungenerous as to leave to a weak woman the burden of the support of a family, which he found his own broad back unable to bear. There is only cowardice in such a death, and dementia is the kindly mantle which charity must throw over such a deed.

Paddy Ryan to the Front.

CHICAGO, August 4th.—Yesterday afternoon it was alleged that Duncan C. Ross put up \$1,000 for fight with Parson Davis to fight an "unknown" against any other man in Chicago. Davis named Paddy Ryan, later a heavy man, introduced by Ross as Mr. Harrison, of Canada, appeared in Davis' saloon. He is presumably the "unknown." Some words ensued and Ryan and Harrison became enraged, stepped out and fought in the alley. In one minute the Canadian was whipped and cried enough. The match is off.

Look Out.

The usual number of tramps and professional rascals which invariably follow all great circuses may be expected here with Sells' circus today and tonight. Our vigilant police are already on the look-out, and have their eyes on several suspicious characters lately arrived, and they will be more vigilant than ever during the next day or two. It would be well for every good citizen to constitute himself a police man for the time and have shot-guns and pistols handy.

Got The Wrong Bottle.

PITTSBURG, August 5.—During the storm here yesterday Mrs. John Prill became frightened, and, seizing a bottle which she thought contained holy water, bathed her face and head with it. The fluid proved to be sulphuric acid and her eyesight was destroyed, besides disfiguring her face and hands.

Death of Henry C. Jarrett.

NEW YORK, Aug. 5.—Henry C. Jarrett, the theatrical manager died in Buenos Ayres on Monday, of lung disease. He was born in Baltimore in 1829, and began his managerial career in the same city in 1852.

WHAT WE DO.

Every day people living in the country are learning more and more to get their things of dress and personal need of the city merchants. It is they who have the greatest variety of goods, the freshest styles and the lowest prices—the three things necessary to the most successful buying.

By means of SAMPLES and ILLUSTRATED CATALOGUES and by aid of long experience and skill in filling orders, we are able to place the advantages offered our city trade equally within reach of out of town customers.

As to cost of sending goods to and fro, we might add that transportation charges have been so reduced that they hardly figure in the handsome saving usually gained.

Have you doubts as to the merits of this system of trade? Try it!
